PROFESSIONAL SUMMARY

Aspiring Full Stack Developer passionate about creating scalable and user-friendly applications. Solved 330+ LeetCode problems with a 1550+ contest rating.

EDUCATION

Bachelor of Technology (Artificial intelligence) — 2024 - 2028
Newton School of Technology, Rishihood University — Grade: 6.5/10.0

Intermediate (Class XII) — 2023 - 2024
Hindu Vidyapeeth — Grade: 81.6%

Matriculation (Class X) — 2021 - 2022
Hindu Vidyapeeth — Grade: 83.4%

PROJECTS

GreenCart - A Grocery Delivery System (Github) (Demo) — October 2025

- Tech Stack - **React JS, Node JS, Mongo DB, Express JS, Tailwind CSS, Cloudinary, Stripe**
- Description - GreenCart is a modern MERN stack grocery delivery web app with a sleek, responsive UI. It uses JWT with cookies for secure authentication, Stripe for seamless payments, and Cloudinary for efficient image uploads — built for speed, scalability, and a smooth shopping experience.
- Features - Features include secure cookie-based JWT authentication, support for both cash on delivery and online payments via Stripe, and Cloudinary for product image uploads. Users can browse items, add to cart, and place orders easily. The admin dashboard allows adding products, toggling in-stock status, and viewing all user orders.

Car Rental - Platform (Github) (Demo) — September 2025

- Tech Stack - **React JS, Node JS, Mongo DB, Express JS, Tailwind CSS, Vercel, ImageKit**
- Description - A dynamic car rental platform where users can create accounts to book vehicles seamlessly and also list their own cars for rent. It offers a smooth, user-friendly experience for both renters and owners.
- Features - The platform features secure login/signup, a powerful dashboard to list and manage cars, view and control rental requests, track bookings, and monitor revenue with detailed analytics. Users can manage car status (pending, canceled, confirmed), enjoy image optimization via ImageKit, and experience a sleek modern UI for smooth interactions.

LoanEase (Github) (Demo) — May 2025

- Tech Stack - **React JS**, **CSS**, **Vercel**, **React-Router**.
- Description - LoanEase is a modern React-based web app that simplifies loan tracking with a clean interface for managing details, EMIs, and schedules.
- Features - It includes a real-time EMI calculator, amortization insights, and smooth navigation, with a reliable deployment on Vercel.

SKILLS

Computer Languages: Python, JavaScript, CSS, HTML
Software Packages: MongoDB, MySQL, Express JS, Tailwind CSS, Prisma ORM, Tailwind, Figma, Pandas, Node.js, React
